

GENERAL ALGEBRAIC MODELING SYSTEM

GAMS-related Courses and Workshops

Whether you are new to GAMS or already an experienced user looking to deepen or expand your knowledge in a certain area - take a look at our diverse list of GAMS related courses. Learn advanced, state-of-the-art techniques in a focused and interruption-free setting using the professional's choice in modeling software - GAMS. Domain experts will be teaching the following courses at locations worldwide.

Courses in 2016 include:

May

Practical General Equilibrium Modeling with GAMS
Energy and Environmental CGE Modeling with GAMS

June

GLOBE Model Course: Global General Equilibrium Modeling with GAMS
STAGE Model Course: Single Country General Equilibrium Modeling with GAMS
Agro-Economic Modeling with GAMS
Practical General Equilibrium Modeling with GAMS
Energy and Environmental CGE Modeling with GAMS
Advanced Techniques in General Equilibrium Modeling with GAMS
Overlapping Generation General Equilibrium Modeling with GAMS

August

Basic GAMS Modeling
Advanced GAMS Modeling

September

Climate and Trade Policy Analysis with GAMS and MPSGE

November

Modeling and Optimization with GAMS (basic)
Modeling and Optimization with GAMS (advanced)

Online,
Continuous

Online Practical General Equilibrium Modeling with GAMS
Online Advanced Techniques in General Equilibrium Modeling with GAMS
